Credit Agricole and the energy transition
A front runner investment bank

Credit Agricole should naturally be the bank of energy transition. Our will is to be in “accompanying mode” and not “breach mode”. As France’s top bank and the world’s N°10, Crédit Agricole has considerable capacity to lead its customers and partners towards a low-carbon economy, by factoring in ESG criteria into its entire funding and investment portfolio, and by investing on a large-scale in green financing.

Philippe BRASSAC
Directeur général de Crédit Agricole S.A.

OUR COMMITMENTS TO 2025 (among others)

- Uniferjeg: X2 annual renewables financing by 2025 (1 out of 3 projects)
- CAA: +65% of renewables capacity by 2025 to reach 14 GW (equiv. to the average consumption of ~5m households)
- +60%: CACIB exposure to low carbon power production by 2025
- 1 green vehicle out of 2 new vehicles financed by CACF by 2025
